<p align="center">.Net Technical Architect</p>	<p align="center">Ref: VS_TA06</p>

.Net Technical Architect required at Vulcan Solutions in Galway. This is an excellent opportunity to progress your career with a long-established, successful and growing software solutions company.

Job Description

In this senior technical role, you will work with our project teams, to deliver high-quality software projects to our customers.

Responsibilities

- Design, develop and deploy complex applications based on MS CRM 2011, MS Sharepoint 2010 & .Net technologies.
- Deliver high-quality code in adherence with business specifications and internal development & naming standards.
- Strong focus on productivity and delivering projects within defined schedules.
- Implement and enhance our internal development standards.
- Mentor and act as a source of knowledge for other team members.
- Perform R&D activities, evaluate products and toolsets.

Experience and Skills Required

Essential

- 6+ years experience in software development, with strong design and OO skills.
- 4+ years experience with an OO language e.g. C++, C#, VB.Net or Java.
- 2+ years experience with MS .Net language (C# or VB.Net).
- Experience designing & developing desktop, web, enterprise & n-tier applications.
- Degree in Computer Science, IT or equivalent qualification.
- Demonstrated ability to quickly grasp and evaluate new technologies.
- Good communication skills.
- Proficient in producing high quality technical designs.

Advantageous

- MS Dynamics CRM, customisation & plug-ins.
- Development for MS Azure.
- SharePoint design & development.
- Microsoft certifications e.g. MCTS / MCPD / MCAD / MCSD .Net.
- MS SQL Server skills: Database modelling, optimisations & tuning.
- .Net web services.
- SSRS and SSAS.
- Application performance analysis & tuning.

Applications to be sent by e-mail only, to ***recruit2012@vulcan.ie***.

Please include a detailed Curriculum Vitae and covering letter, and quote the job ref number.
