<p align="center">Business Analyst</p>	<p align="center">Ref: VS_BA03</p>

Business Analyst required at Vulcan Solutions in Galway. This is an excellent opportunity to progress your career with a long-established, successful and growing software company.

Job Description

In this role, you will work within our software development team to provide Business Analysis inputs on our software projects.

Responsibilities

- Lead client workshops to scope and define projects.
- Capture and document user requirements in detailed functional specifications and translate those requirements into project deliverables.
- Liaise with Software Development, Quality Assurance and Application Support teams internally.
- Liaise with business users at various levels of seniority and at all stages of the project lifecycle.
- Provide user training on software systems.
- Provide supports to company sales and marketing activities.

Experience and Skills Required

Mandatory

- College graduate with a major in business or technology.
- Minimum of 5 years of post-qualification experience.
- Ability to analyse business processes; optimise and document.
- Experience to include business analysis across a range of project sizes i.e. tactical solutions through to enterprise-level strategic implementations.
- Ability to work on own initiative in a fast-paced environment.
- Keen attention to detail.
- Ability to establish working relationships with customers quickly, and to deliver consensus within broad, cross-functional teams.
- Excellent verbal and written communication skills.

Advantageous

- Relevant professional qualifications in Business Analysis.
- Experience of solution delivery on the Microsoft CRM or Microsoft SharePoint platforms.
- Experience of project delivery in government or financial services sectors.

Applications

Applications to be sent by e-mail only, to ***recruit11@vulcan.ie***.

Please include a detailed Curriculum Vitae and covering letter, and quote the job ref number.
